Technical Toolbox Experience

Environments: UNIX, Windows 7/8/8.1/10
Web Tools: Web Editors (Visual Studio Code/CodePen), Node.js, Command-line, Terminal, Git/GitHub, Bootstrap
Languages: ES6 JavaScript, HTML5, CSS3, SASS, PHP
Miscellaneous: MongoDB Atlas, AWS, Docker, Vagrant, Netlify, Balsamiq, WordPress, Wix, Shopify

Education

Web Developer Certificate | SAIT | Calgary, AB | *expected February 2020*

Courses: *Web Design Theory & Social Media, Content Management Systems, Web Client & Server Programming, Web Design Tools & Techniques (Adobe Photoshop & Illustrator)*

Bachelor of Science in Environmental Science | University of Calgary | Calgary, AB | 2013

Project Experience

Express and MongoDB Login Authentication Form App, SAIT, Calgary, AB

2019

Technical Tools: *MongoDB Atlas, Node.js, npm (express, ejs, passport/passport-local, bcryptjs)*

Utilized npm modules (express/ejs) to build a register/login application that incorporates passport for authentication. Users information is posted to a MongoDB Atlas collection, leveraging bcryptjs to include a hashed password. Once logged in, user is redirected to a dashboard page that dynamically displays users name.

Express and MongoDB Blog Post App, SAIT, Calgary, AB

2019

Technical Tools: *MongoDB Atlas, Node.js, npm (express, express-session, ejs, passport/passport-local, bcryptjs)*

Created a Node Express server utilizing npm modules (express, ejs, dotenv and mongoose) that processes incoming POST data using urlencode, renders view templates, catches 404 requests, serves static assets, and listens for requests on a Port. A connection to an Atlas database was created and connected to a blog model. A route was created to serve two endpoints to display blog articles either as a list or individually based on its slug.

JavaScript App using RESTful API, SAIT, Calgary, AB

2019

Technical Tools: *Visual Studio Code, Command-line, HTML5, CSS3, ES6 JavaScript*

Uses a random advice RESTful API to fetch advice and display it on the page when a 'Get Advice' button is clicked. The app also incorporates a working hamburger mobile menu using CSS3 animations and ES6 JavaScript.

Career Experience

Web Design & Social Media Marketing, **DubTub**, Calgary, AB

2018 to 2019

Collaborated with local startup company to help build online presence utilizing WIX to create and brand E-commerce website. Spearhead design and development of sites content including writing blog posts and product descriptions. Coordinated photoshoots with local photographers to obtain product shots and marketable photos for use in design. Utilized social media platforms to create strategic advertising campaigns.

- Successfully increased online conversion and sales through implementing branding, advertising, SEO, and networking techniques.

Freelance Writer, **TALENT INC.**, Calgary, AB

2016 to 2019

Utilize excellent written/verbal communication skills combined with advanced proficiency in Microsoft Office to develop high-quality resumes, CVs, and LinkedIn profiles for clients. Established interpersonal relations with clients to understand their career history and objectives.

- Ensured all final products met strict deadline standards to ensure complete customer satisfaction.

Department Manager, **PETLAND**, Calgary, AB

2008 to 2019

Instrumental in managing all aspects of day-to-day store operations, including talent acquisition, performance reviews, staff development, task delegation, scheduling, and payroll. Model high-quality customer-service standards—going above and beyond expectations—to maximize loyalty and satisfaction. Outstanding work performance achieved numerous promotions from *Store Supervisor, Merchandising Manager, Animal Care Manager, and Assistant Manager in Training*.

- Successfully led departments in surpassing sales and performance goals.
- Strategically created Sales Reports that aided in informing and motivating team members.
